CLIP-ON-THE-BACK DEPT: Thanks to the combined effects of untiring effort by a dedicated few and unabashed joviality by an ebullient many, the Gryphon Houseparty functions were a rather impressive success. The progress of "Bombast II" Saturday evening was impeded not in the least by the early malfunctioning of the automatic gravity compensator, although some of the passengers reported symptoms of dizziness and queasiness of the stomach following the compensator's failure. However, this was attributed by some of the more scientific members of the crew to the incident of one of the passengers exceeding the critical beer-mass ratio. The ship landed safely back on earth with all hands none the worse (?) for their journey.

Ralph Humphrey and Messrs. Kim, Hackworth, Hibshan, Masuda and Pieski rate commendation for their excellent presentation last Tuesday. We're sure their discussion stirred up some new thought on counseling problems.

A NOMINATING COMMITTEE for next year's officers and executive board have been appointed as follows: Jim Fozard, chairman; Howard Troy, Dave Wismer, Mel Masuda, Dick Lambert, and George Dolen. Since elections will be held Freshman Week it is important that everyone do some thinking as regards who they think is best qualified for the posts of leadership of our Society. Those who wish to nominate or be nominated should contact a committee member.

BADGE OF OFFICE DEPT:

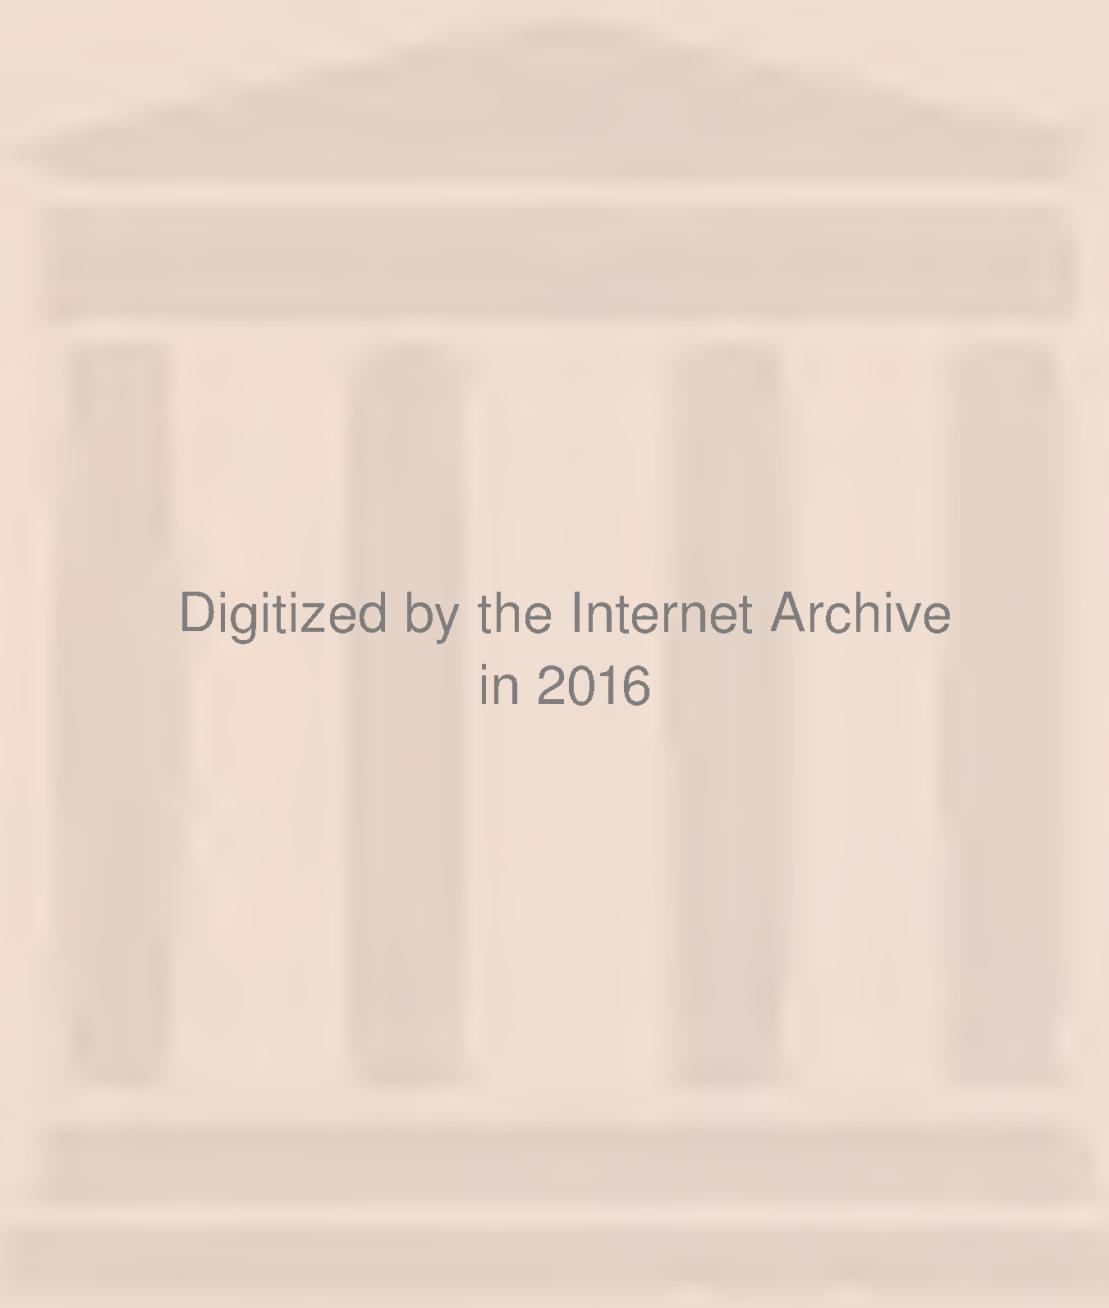

Sheepskin Division: Pete Niiler reports that our membership certificates have been ordered, and are expected before the end of the semester.

Tin Star Division: Dave Wismer reports that the Gryphon keys have not come in yet. If they make it in time, they will be distributed at ye Banquette.

ANNOUNCEMENT: Dravo House meeting, 10 PM tonig't, in the usual place.

OUR LAST EDITION for the year will probably be next week's; this then brings us to thoughts of self-evaluation, and in doing so we would like, for a change, to go after the outside story. What do you think of The Pricked Ear's existence, its aims, either as stated or as carried out, if there is a difference, and its methods of carrying them out? We earnestly request all readers to submit their ideas, so that we may be assisted in trying to serve better the Gryphons/Counselors.

YE ABSOLUTE ENDE!
